DESIGN PUMPS

ELECTROMAGNETIC DOSING PUMPS

01 NOVA A

Analog Liquid Level Controlled & 1/10 Adjustable Dosing Pump

- Adjustable stroke rate via the potentiometer. (Image 1)
- 95- 260 VAC working range and solenoid driven technology that can do automatic adaptation accordingly to line voltage.
- Low energy consumption.
- Easy and flexible installation and usage by the vertical mount design and alternative mounting advantage by base fixing bracket. (Image 2)
- High resistance to corrosive chemicals with the PVDF Pump Head and entire IP65 body.
- Electronic circuit controlled electromagnet and long lasting Teflon (PTFE) diaphragm.
- Lesser Maintenance by ceramic ball design
- Suction and injection parts included
- Easy disassemble cable socket
- Double Liquid Level Control input
- 1/10 Adjustment button (Image 3)

Stock Code	Model	L/h	Max. Counter Pressure/Bar	Package Sizes/cm W-L-H	Packed Weight/Kg

ELECTROMAGNETIC DOSING PUMPS

NOVA D

Digital Liquid Level, Flow Controlled Volumetric Dosing Pump

- LCD screen and user friendly button technology, rapid shortcut for air intake mode. (Image 1)
- 95- 260 VAC working range and solenoid driven technology that can do automatic adaptation accordingly to voltage.
- Less maintenance by Zirconium Ball and Long-Life Teflon (PTFE) diaphragm.
- Manual or Real time operating choice.
- Operating with signal ratio and signal input with water meter and flow meters.,
- Controlled operation with analog input 4-20 mA/ 20-4 mA/ 0-20 mA/ 20-0 mA (Image 2)
- Able to work with volumetric ppm operating system,
- Able to work with periodic operating system and trigger operating system
- Capacity unit options (L / h - Hit / Minute - Beat / Hour -%)
- Chemical and water level sensor inputs and flow sensor input (Image 3)
- Capacity calibration, Operation limiting function, Knock feedback adjustment
- ModBus RTU (RS485) communication input, Alarm notification and alarm output,
- Password Protection, PT100 sensor input

Stock Code	Model	L/h	Max. Counter Pressure/Bar	Package Sizes/cm W-L-H	Packed Weight/Kg

ELECTROMAGNETIC DOSING PUMPS

01 NOVA DMPR

Digital ORP / PH & Liquid Level, Flow Controlled Dosing Pump

- LCD screen and user friendly button technology, rapid shortcut for air intake mode. (Image 1)
- 95- 260 VAC working range and solenoid driven technology that can do automatic adaptation accordingly to voltage.
- Less maintenance by Zirconium Ball and Long-Life Teflon (PTFE) diaphragm.
- Proportional working by Ph or Orp measurement (Image 1), Sensor calibration
- Traceability of measured values with 4-20 mA output. (Image 2)
- Manuel or real timed operation
- Signal input and signal proportional operation with water meters and flowmeters
- Controlled operation with analog input 4-20 mA/ 20-4 mA/ 0-20 mA/ 20-0 mA Able to work with volumetric ppm operating system.
- Able to work with periodic operating system and trigger operating system
- Chemical and water level sensor inputs and flow sensor input, PT100 sensor input
- Capacity calibration, Operation limiting function, Knock feedback adjustment
- Alarm notification and alarm output, ModBus RTU (RS485) communication input (Image 3)

Stock Code	Model	L/h	Max. Counter Pressure/Bar	Package Sizes/cm W-L-H	Packed Weight/Kg

ELECTROMAGNETIC DOSING PUMPS

NOVA DMiA

Digital FCL / Selective Sensor & Liquid Level, Flow Controlled Dosing Pump

- LCD screen and user friendly button technology, rapid shortcut for air intake mode. Password production
- 95- 260 VAC working range and solenoid driven technology that can do automatic adaptation accordingly to voltage.
- Less maintenance by Zirconium Ball and Long-Life Teflon (PTFE) diaphragm.
- Proportional working according to Ampermetric Free Chlorine measurement.(Image 1), Sensor calibration
- Proportional working based on Free Chlorine, Chlorine Dioxide, Hydrogen Peroxide, Peracetic Acid sensors
- Traceability of measured values with 4-20 mA output.
- Manuel or real timed operation
- Signal input and signal proportional operation with water meters and flowmeters
- Controlled operation with analog input 4-20 mA/ 20-4 mA/ 0-20 mA/ 20-0 mA able to work
- Volumetric ppm operating system.
- Able to work with periodic operating system and trigger operating system
- Chemical and water level sensor inputs and flow sensor input, (Image 2) PT100 sensor input
- Capacity calibration, Operation limiting function, Stroke feedback adjustment
- Alarm notification and alarm output, ModBus RTU (RS485) communication input (Image 3)

ELECTROMAGNETIC DOSING PUMPS

01 AUXILIARY EQUIPMENT FOR NOVA SERIES

Stock Code	Model	Image and Description	
704421000000014	STN ELECTRODE FCL/O 5 PPM SELECTIVE		0-5 PPM Selective Free Chlorine Sensor
704421000000013	STN ELEKTRODE FCL/O 2 PPM SELECTIVE		0-2 PPM Selective Free Chlorine Sensor
704421000000016	STN ELEKTRODE CLO ₂ /O 10 PPM SELECTIVE		0-10 PPM Selective Chlorine Dioxide Sensor
704421000000018	STN ELEKTRODE H ₂ O ₂ /O 500 PPM SELECTIVE		0-500 PPM Selective Hydrogen peroxide sensor
510011087010000	ELECTRONIC BOARD MODUL DP NOVA COMM V1.0		MODBUS RTU (RS485) Communication Extension Module for NOVA D / DMPR / DMiA
610103050000002	CABLE SET SIGNAL EXTERNAL DP NOVA		External plug cable kit for selective sensors and other digital inputs.
600510010111000	YP CELL AMPERMETRIC FREE CHLORINE		0-10 PPM Ampermetric Free Chlorine Sensor (Cu-Pt)
600112410030000	FLOW CELL SELECTIVE		Selective Electrode input flow cell
600110400500000	MOUNTING SET FLOW CELL		Flow cell mounting set parts
600112410050000	ELECTRODE HOUSING SET SINGLE SYSTEM SELECTIVE		Selective electrode input, Dirt holder pre-filter, sample taking valve
600110400100000	MOUNTING SET SYSTEM		Mounting parts for housing of Selective Electrode input, dirt holder pre-filter- with sample taking valve

The sensors and holders in the table above valid for the Nova DMIA series.

For Nova DMPR, holder electrode sets on page 17 can be used.

Please contact us for more sensor and holder selection for different processes.

ELECTROMAGNETIC DOSING PUMPS

01 LARA A

Analog Dosing Pumps

- Adjustable stroke rate via the potentiometer on the device (Image 1)
- On/Off Button (Image 2)
- Easy and flexible installation and usage by the vertical mount design
- High resistance to corrosive chemicals with the PVDF Pump Head and entire IP65 body (Image 3)
- Electronic circuit controlled electromagnet and long lasting Teflon (PTFE) diaphragm
- Lesser Maintenance by ceramic ball design
- Suction and injection parts included

ELECTROMAGNETIC DOSING PUMPS

LARA DMS

Digital Liquid Level Controlled & Volumetric Dosing Pump

- Digital screen, precise dosing with micro controller technology, time adjustment, liquid level control (Image 3) and user password parameters (Image 1)
- User friendly button technology with easy menu
- Adjustable double BNC input (optional liquid level or flow contact)
- Volumetric proportional control when connected to flowmeters (water meter, flowmeter, etc.) (Image 2)
- 4-20mA analog input, liquid level alarm relay (Image 2)
- Easy and flexible installation and usage by the vertical mount design
- High resistance to corrosive chemicals with the PVDF Pump Head and entire IP65 body
- Electronic circuit controlled electromagnet and long lasting Teflon (PTFE) diaphragm
- Lesser Maintenance by ceramic ball design
- Suction and injection parts included

ELECTROMAGNETIC DOSING PUMPS

01 LARA PR

ORP/PH & Liquid Level Controlled Digital Dosing Pump

- Digital screen, precise dosing with micro controller technology, time adjustment, liquid level control and user password parameters (Image 2)
- User friendly button technology with easy menu
- ORP (REDOX) or pH measurement with standard combination electrodes (Image 1)
- Totally digital and automatic calibration by using buffer solutions (Image 3)
- Start-up Delay function, adjustable timer for correct reading measurements according to chemical reaction time (0-60 min.)
- Volumetric proportional control when connected to flowmeters (water meter, flowmeter, etc.) (Volumetric control cable is not included product package)
- 4-20mA analog input
- Adjustable BNC input (optional liquid level or flow contact)
- Easy and flexible installation and usage by the vertical mount design
- High resistance to corrosive chemicals with the PVDF Pump
- Head and entire IP65 body Electronic circuit controlled electromagnet and long lasting Teflon(PTFE) diaphragm
- Lesser Maintenance by ceramic ball design
- Suction, injection parts and liquid level sensor accessories included

Lara Series Dosing Pump Used Parts and Materials		
Pump Head		PVDF
Pump Body		PP
Check valves	Suction Set	PP-PVDF*, Zirconyum Ball, Viton-EPDM* Oring
	Injection Set	PP-PVDF*, Zirconyum Ball, Viton-EPDM* Oring
	Pump Head Set	PVDF, Zirconyum Ball, Viton-EPDM* Oring
Diaphragm		PTFE
Glands		PVDF
O-Rings		Viton-EPDM*
Suction Pipe		PVC/PE*
Injection Pipe		PE
Ventilating Pipe		PVC/PE*

*May vary by model

ELECTROMAGNETIC DOSING PUMPS
LARA SERIES SAMPLE APPLICATIONS

ELECTROMAGNETIC DOSING PUMPS

01 NANO A

Nano Series Analog Dosing Pumps

- Adjustable stroke rate via the potentiometer on the device (Image 1)
- Easy and flexible installation and usage by the vertical mount design (Image 2 and 3)
- High resistance to corrosive chemicals with the PP Pump Head and entire IP65 body
- Electronic circuit controlled electromagnet and long lasting Teflon (PTFE) diaphragm
- Lesser Maintenance by ceramic ball design
- Suction, injection parts and liquid level sensor accessories included

01

ELECTROMECHANIC DIAPHRAGM DOSING PUMPS

EMD-P

Plastic Body Electromechanic Diaphragm Dosing Pumps

- Ideal solution for dosing high amount of liquid chemicals in precise measure
- Optional Pump head, unions and check valve preference among PP, SS 316 and PVDF materials according to chemical used
- Capacity adjustment from 0%-100% while running or standby
- Ability of capacity adjustment with 4-20 mA signal input motor driver
