

1/4 in. Portable Outdoor Mist Cooling System

Portable systems can be installed virtually anywhere a hose connection is available: patios, umbrellas, dog houses, gazebos, playgrounds, etc.

10 ft. of mist cooling.

Preassembled for fast and easy installation.

Begin cooling in less than 30 minutes.

Connects to a standard hose faucet or garden hose.

Includes a four year warranty.

3/8 in. Basic Outdoor Mist Cooling System

Orbit®|Arizona Mist® Basic Outdoor Mist Cooling System includes everything you need to get a home mist system started. This kit includes a filter, auto drain valve and clamps to hang the tubing.

This kit provides for 10 ft. of mist coverage. The system can be expanded up to 50 ft. with the Orbit®|Arizona Mist® Basic Expansion Kit (Model 30068/30315). Each expansion kit provides for an additional 10 ft. of misting coverage.

Connects to a standard outdoor faucet.

Preassembled and ready to install - begin cooling in less than 30 minutes.

Includes a four year warranty.

Models 30060 & 30310

Models 30068 & 30315

1/2 in. Performance Plus Outdoor Mist Cooling System

Orbit®|Arizona Mist® 1/2 in. Performance Outdoor Mist Cooling System is a step above the 3/8 in. Basic Outdoor Mist Cooling System. It includes everything the 3/8 in. Basic kit provides, with the added durability of brass fittings with 1/2 in. flexible tubing. This kit provides 20 ft. of mist coverage.

Preassembled and ready to install - begin cooling in less than 30 minutes.

Includes a four year warranty.

Model 31020

1/2 in. Performance PVC Outdoor Mist Cooling System

Orbit®|Arizona Mist® 1/2 in. Performance PVC Outdoor Mist Cooling System provides 10 ft. of mist coverage. It is expandable up to 250 ft., with sufficient water pressure, using standard PVC pipe, fittings and our split section couplings with brass and stainless steel mist nozzles (Models 10112 and 10112W).

Quickly connects to any standard garden hose.

Assembles in less than one hour.

Includes a four year warranty.

Models 16055 & 30430

3/8 in. Professional Outdoor Mist Cooling System

The Orbit®|Arizona Mist® 3/8 in. Professional Outdoor Mist Cooling System utilizes patented brass slip-lok fittings that can be rotated 360 degrees, making this our easiest kit to adjust.

The kit provides for 10 ft. of mist coverage. It is expandable up to 125 ft. simply by purchasing additional Orbit®|Arizona Mist® 3/8 in. tubing (Models 92225 and 92228) and Slip-Lok couplings with mist nozzles (Model 10121W).

This system can be upgraded to a commercial grade outdoor mist cooling system with the addition of the Orbit®|Arizona Mist® 110 v Booster Pump (Model 92100).

Fast and easy installation - begin cooling in less than 45 minutes.

Connects to any standard outdoor faucet or garden hose.

Includes a four year warranty.
